

G. Wildfire Hazards Areas:

1. Development shall provide for ready access to fire and other emergency equipment and for routes of escape to safely handle evacuations.
2. Fire break easements separating dwelling or clusters of dwellings from the native vegetation may be required. All vegetation need not be removed, but should be thinned out or landscaped so as to reduce the amount of fuel. (Ord. 2004-10, 8-10-2004)
